Sharon Corbett (Program Director, Industry Collaborations)

Guests: Doug Miller (ConocoPhillips)

**Quorum:**

Quorum achieved (requires at least 4 members out of 7)

**Minutes:**

**Approve Minutes of the February 12, 2026 call** - approved unanimously.

**Provelt! recap and action points** - meeting cadence discussed briefly before Provelt recap, cadence may change to monthly with more group consensus. Provelt was a huge success, approx. 60+ leads to follow up on based on booth visits. Survey results pending. Feedback of the event overall is positive in terms of spreading Sparkplug awareness.

**Outreach: Program Plan priorities, Opportunities underway** - Once an opportunities list (from Provelt) is consolidated it will be shared with the Eclipse team. Sparkplug representation will be at Entelec in April. The 2026 Program is reviewed during the meeting: strategy, value, and growth.

**Marketing: General update, Webinar finalisation** - March 5th webinar needs a few more weeks of preparation. Consensus from the rest of the participants is needed for a new date. There will be a post event communication plan after the webinar. Promotion for webinar at Embedded World will be helpful.
